

# Northwest Regional TCOM Conference

May 1-2, 2019 - Red Lion Boise Downtowner Hotel | Boise, ID

## Setting the Stage: Creating a Shared Vision to Support Transformation

The theme of this conference is Creating a Shared Vision to Support Transformation. As multiple state systems work to enhance the system of care, it is important for people throughout the system to work together towards a common vision. Collaboration only works when people can identify a shared purpose and goals. The development of this shared vision should start with individual children and families and then grow to include everyone throughout the system. By creating our ability to focus on the best interests of children and families, together we can build a system that cares.

This first ever Regional Conference, jointly hosted by Chapin Hall at the University of Chicago, The Praed Foundation and Youth Empowerment Services (YES), offers a platform for the TCOM collaborative located in the northwest region to learn from each other and share their experiences. YES Program Partner Agencies consist of the Idaho Department of Health and Welfare, Idaho Department of Juvenile Corrections, and Idaho State Department of Education.

**Key Audience.** This conference is designed to support individuals in all key roles within child welfare and mental health systems serving children, youth, and families throughout the northwest in using TCOM tools. Presentations will support learning and training for 3 key audiences—family/parent partners and direct care workers, administrators and supervisors, researchers and information specialists.

### KEY CONFERENCE OBJECTIVES—

- Gain knowledge and increase understanding of TCOM philosophy, strategy and tactics, and how they may be used to guide transformation
- Network with individuals from throughout Idaho as well as presenters and attendees from neighboring states
- Increase collaboration among differing roles and perspectives within the children's mental health and partnering systems to create one shared vision; to improve the lives of children/youth and families
- Walk away with valuable resources, practical application and ways to continue progressing in the support of the work with the CANS in the new system of care

\*The Praed Foundation has applied to professional regulatory boards for up to 11 continuing education credits and will later confirm the exact details. At the end of the conference, all attendees will receive a survey to complete for continuing education requirements.

## [REGISTER NOW FOR THE CONFERENCE!](#)

*Registration for the NW Regional TCOM Conference can be accessed online via the Eventbrite platform. Be sure to fill out all required information as outlined on the registration form and any supplemental information needed. All personal information will only be used for the purposes of this conference and TCOM Communications.*

*An event application can also be downloaded on your mobile phone that includes sessions, presenter, and sponsor information. All registered attendees will receive further instructions.*

*Visit the event page on the [TCOM Blog](#) to learn more the conference partners and sponsorships.*
